Town Council

A meeting of the Town Council was held on Thursday evening of last week. Present—Mayor Luckhardt, Councillors Robertson, Beattie, Hard, Reid, Cotton and Willmott.

The following accounts were read—
Herald Western Co., \$50.50
Phone account, 4.00
C. H. Bell, draying, etc., 4.50
Drug Store, 4.50
J. M. Beaton, road grading, 120.00
C. F. Fowler, 57.90
J. C. Jones, 5.50
A. Bates, 15.75
J. C. Jones, 5.50
C. Raby, work on sidewalks, 3.50
A. B. Cook, street grading, 51.35
R. S. Bickle, fire Dept. supplies, 31.30
Armstrong & Lynch, gas, 107.10

The accounts were ordered paid with the exception of R. S. Bickle's, which was ordered to be held over until the next meeting. The sum of \$106.50 was deducted from Armstrong and Lynch's account for unloading pipe, and Mr. Cook's account was returned for an itemized statement.

J. W. Prillman interviewed the Council relative to some dirt out of his cellar. If the Council required this for any purpose he was willing to pay half the cost of removal.

The matter was left in the hands of the town superintendent. A letter was received from the Department at Ottawa with regard to allowing the C.P.R. to lay their water main through the public park.

This letter resulted because of the Council's objection to the water main crossing the park, it being contended that repairs might possibly be made by the C.P.R. at some future time when the park was planted with shrubs, etc.

The matter was left in the hands of the solicitor to take up with the Department at Ottawa. The matter of a water supply for the town was then taken up and fully discussed.

Eventually it was decided to advertise for tenders; persons tendering to state price per barrel for furnishing and delivering water to consumers, and to submit analysis of water proposed to be supplied.

The matter of furnishing water for the public trough again came up, some of the Councilors stating that it was causing considerable inconvenience to farmers coming into town.

It was finally decided to ask the Fire, Water and Light Committee to draw up a contract for supplying water for town purposes.

On the application of F. Sutton, who interviewed the Council on behalf of the ratepayers living in Bow Avenue and West of that thoroughfare, the Public Works Committee was authorized to lay down a sidewalk along Bow Avenue.

The meeting then adjourned.

A special meeting of the Town Council was held on Saturday morning to consider the resignation of C. H. Nelson, gas superintendent, who had just received a pressing invitation to return to Galt, Ontario.

Mr. Nelson appeared before the Council and stated his reasons for desiring to leave at once. After a short discussion it was decided to accept his resignation, and Mr. Nelson consequently returned to Galt this week.

Will Convey Grain by Water.

Saskatchewan River to be Made Navigable.

A despatch from Ottawa received this week states that a new means of transporting western grain and coal is planned in the survey of the Saskatchewan river, which is to be completed this fall, by engineers of the public works department. They have been engaged in the work for three years, and the idea is to have a five-foot waterways from the Rockies to Winnipeg. This would be sufficient for large traffic.

The cost is roughly estimated at \$15,000,000, and the principal items being a series of locks along the river. The total cost would be reduced by value added water power to be developed along the route.

The idea of making this river navigable is worthy of the greatest consideration. The Dominion Government would thereby confer a boon upon western farmers that would be of incalculable value to every resident. The matter is of course a job in its infant stage, and cannot therefore be

discussed very seriously just now. The mere fact of its being debated, however, and money spent upon the preparation of the report would go to show that the scheme might very well assume a more important aspect in the near future.

The navigation of the Saskatchewan river is something of very great importance to every farmer in Southern Alberta, as the cost of haulage of farm produce would be decreased tremendously.

What it would mean to Bow Island must be left to the imagination.

The fact must be kept in mind, however, that Bow Island is some five or six miles nearer the river than other towns along the river. This naturally means that through this town would pass the greater proportion of the grain grown in the south country. A fact which will induce every resident to ardently desire the early consummation of this very worthy scheme of the Dominion Government.

TOWN OF BOW ISLAND.

Tenders for Hauling Water.

Tenders will be received by the undersigned up to noon on July 22nd for the privilege of hauling and disposing of water to residents of the town.

Tenders must state price per barrel to consumers, and must be accompanied by certified cheque for \$20.00, which will be held by the town as a guarantee of the faithful performance of duties on the part of the successful tenderer.

Persons tendering must furnish a sample of water accumulated at a depth of one foot.

The fact that any tender will not necessarily be accepted.

Dated at Bow Island this 1st day of July, 1914.

Recent Amendments to the Homestead Regulations.

Our article in last week's Review relative to the Homestead Regulations created considerable interest and discussion.

We received this week a copy of the amendments as they are now in force, and although the major portion of them have already been published by us, yet we think they are of sufficient importance as to warrant their re-publication.

CHANGES MADE.

The following, in brief, are the main points—

1. Upon earning homestead patent the pre-emption patent may also be obtained, at once, upon paying for the land in full and showing that certain duties have been performed.

2. The holders of pre-emptions are relieved of interest until three years have elapsed from the date of the pre-emption entry.

3. No interest is chargeable now upon any instalment in connection with either a pre-emption or a purchase with instalment until after such instalment falls due.

4. With certain restrictions, stock

may be substituted in lieu of cultivation.

It is believed that the new regulations in regard to stock in lieu of cultivation will not only prove a great boon to homesteaders who have land not altogether suited for cultivation, but will give an impetus to mixed farming.

CAN SUBSTITUTE STOCK.

If a report from a homestead inspector shows that a quarter section does not contain arable land to the extent required to obtain patent under the regulations with respect to cultivation, authority will be granted to the settler to substitute stock in lieu of breaking and seeding.

If this privilege is conferred on the entrant, he will be required to show when making application for patent that he has the case of an ordinary homestead, been the sole owner during the whole of the first year, at least five head of stock; during the second year, at least ten head of stock, and from and after the expiration of the second year, up to the date of application for patent, of at least sixteen head of stock.

IN CASE OF A PRE-EMPTION.

In the case of a pre-emption, the entrant will be required to show, when making application for patent, that he has continued to own his homestead, and that he has had upon the land, in

the fourth and fifth years of the performance of duties, stock to the number of at least twenty head, and from and after the expiration of the fifth year up to the date of the application for patent at least twenty-four head of cattle.

In the case of a purchased homestead, when making application for patent the entrant will be required to show that he was the sole owner, during the whole of the first year, of at least five head of cattle; during the second year, of at least ten head of stock, and from and after the expiration of the second year, up to the date of application for patent, of at least sixteen head of stock.

The term "stock" includes cattle, that is, cows or bulls and their young, and horses, male and female and their young. Sheep and hogs are also included.

If sheep and hogs are kept, ten sheep or ten hogs, or ten sheep and hogs, will only be reckoned as the equivalent of one head of cattle, that is, equal to one horse, or one cow or bull.

All stock must be kept on the homestead, pre-emption, or purchased homestead, as the case may be, either for summer grazing or for winter feeding.

BUILDINGS FOR STOCK.
Substantial buildings for the accommodation of the whole number of stock to be kept in any year shall be erected and maintained during the whole period such stock is to be kept and solely owned by the applicant for patent.

Such buildings shall, in the case of an ordinary homestead, be erected upon the homestead itself, in the case of a pre-emption such buildings shall be erected upon such pre-emption or the adjacent homestead, and in the case of a purchased homestead, such buildings shall be erected upon such purchased homestead or upon the entrant's free homestead, and the residence has been performed there in accordance with the regulations.

YEARLY RECORD.
The entrant, or in the case of his death, his legal representative, shall furnish to the Minister a statutory declaration duly made and completed according to law, promptly after the expiration of each year during the period that he has kept stock upon his land, as to the numbers he has kept thereon during such year or period, and that they are and have been during that year or period, as specified in the statutory declaration solely owned by him.

The whole quarter section of land entered for shall be enclosed by a substantial fence to the satisfaction of the Minister.

In reference to entries that have already been made, stock may be allowed to count, in cases where the land has been reported by the inspector as being altogether unfit for grain growing.

WORK OF EQUAL VALUE.
So far as homesteads are concerned the provision in the regulations for the reduction of the area of cultivation in cases where the land is difficult to break by reason of woods, rock, or the broken character of the soil, and the remains in force, it being always understood that the settler is required to do work equal in value to what would have been required if he had an ordinary prairie homestead.

There may be cases where only a small area can be cultivated and such cultivation would not involve any very great expense. In those cases if it is shown by the inspector's report that the full area required by the regulations cannot be cultivated, and the entrant shows that he has performed all the cultivation possible, and has sufficient stock to make up for the proportion of the cultivation which is lacking, this area cannot be allowed to count such as performance or part performance of duties, if the quarter section is one where the full area of cultivation required by the regulations can be performed.

Rural Municipality of Forty Mile.

A special meeting of the above was called on June 22nd to meet Deputy Minister Perrie, Mr. Fildes, Inspector of Municipal Roads (Hon. A. J. McLean and Mr. Eylesworth, Supervisor of Highways were also present. Mr. McLean gave a short address in which he said that he would endeavor to have money set aside next year for grading the two roads directly south from Bow Island and Burdett. Owing to the small amount of money at the disposal of the roads committee, it was impossible to do anything with these roads this year.

Mr. Perrie gave us some most detailed information on the Municipality Act. In regard to taxation of unimproved lands, we said that while we would not tax the land, we could tax the interest a person had in the land, and that interest he should pay, be it same for a pre-emption as a homestead.

Flowerly Plains.

A Grand Old-Time Picnic will be held at the Flowerly Plains school-house on July 10th, to which everyone is heartily invited. An excellent programme of Sports has been arranged, including races for boys and girls. A senior ball game will take place after supper, and the proceedings will conclude with a grand dance. There will be a confectionery stand on the ground. There will be lots of hot and cold water on hand but no food. So come prepared with a large, well-filled basket, and have a real good time.

We have had another good rain and everything looks fine.

Mr. Bert Foster is back again on his homestead.

Mrs. A. Hinds and Irene were the guests of Drs. F. Gillett on Sunday.

Mr. and Mrs. Geo. Foster and son, Mrs. Theo. Spencer and family, were the guests of Mr. and Mrs. F. Hurlbut on Sunday.

We are all glad to have Mr. and Mrs. Kingsford and family back again to their homestead.

The Rev. Mr. Eyles preached his farewell sermon here on Sunday evening. We hope he will have better success in his new field of labor, as we are sorry to say they don't turn out very good here for church service.

Perhaps a Ladies' Aid would help matters somewhat? What do you think ladies?

Frank Gillett and Ed. Trakler have gone to Montana.

Jack Johnson Still Champion.

Paris, June 27th.—As the majority of fight fans expected, Jack Johnson retained his championship belt by knocking out Frank Moran from the Volodrom D'Orleans, which went the full twenty rounds, though the Irishman was greatly exhausted towards the end. Moran made a plucky fight, standing up to the light blows and doing the greater part of the leading to the thorough admiration of the crowd. The negro's science was too much for the challenger, however, and his upper-cut counted heavily.

Toward the close Johnson had the Pittsburgh absolutely at his mercy. Moran apparently feared that he would be finished, and clung to Johnson's body for support, trying at the same time to land, but without success. His manner of fighting and holding in the latter part of the contest was the cause of unfavorable comment, as were the tactics of leaning on several occasions, which brought a caution from the referee, as well as a storm of jeers from the crowd.

It was announced the gate receipts exceeded 200,000 francs (\$10,000).

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS.

ANY person who is the sole holder of a family or ordinary mile over 18 years of age, may homestead a quarter section of land in the Dominion land in the Yukon, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Land Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months residence upon and cultivation of the land in each of three years. A homesteader may live on a farm of at least 80 acres, wholly owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section along his homestead. Price \$5.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead or pre-emption (including time required to earn each homestead patent) and cultivate 50 acres extra.

A homesteader who has exhausted his homestead right cannot obtain a pre-emption any more for a purchased homestead in certain districts.

Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00.

The Lethbridge Herald states that according to advice received Monday morning from Superintendent Cameron of the C.P.R. at Medicine Hat, weekly train service on the Foremost branch started Tuesday. The weekly mixed train will run every Tuesday hereafter, leaving here early in the morning and returning at night. Freight Agent long states that the train will be loaded on Mondays. This service will be a great advance on the original fortnightly train and will prove a boon to the homestead country where the settlers have been clamoring for the increased service or some time.

TENDERS

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for the building of the Foremost branch, C.P.R., will be received at this office until 4.30 P.M. on Wednesday, July 22nd, 1914, for the building mentioned.

Plans, specification and form of contract can be seen and forms of tenders obtained at the office of Mr. Leo Dowler, Architect, Calgary, Alta., on application to the Post Office, Banff, and at this Department. Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 per cent) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

The death occurred recently in Birmingham, England, of Mr. William Foster, elder brother of Mr. H. H. Foster, the well-known Seven Persons rancher, and Mr. A. Foster of the McGregor ranch, Bow Island.

Rev. M. L. Wright writes to the Review this week from Wetaskiwin, and states that they are very pleasantly located. They have a comfortable parsonage, surrounded by an excellent garden and lawn with nice

shade trees. The church is very convenient and contains a kitchen and six Sunday school rooms, four of them being so arranged as to form part of the auditorium if required. The choir is gowned in Geneva gowns with white collars. Mr. Wright polled his first vote in Wetaskiwin on Friday last on a by-law for \$7500 for a heating apparatus for the Alexandria School.

Thos. Ross purchased this week a fine team of mules from Ed. Bechtel of Taber.

F. W. Taylor visited the Calgary exhibition this week.
